LED CANOPY LIGHTING

Ideal Energy's under canopy lighting system delivers powerful and attractive energy-efficient LED illumination where and when it is needed. Whether used as a retrofit solution or for new construction, it can have a significant impact on gas station profitability, safety, and sustainability.

Advantages:

- Lower Operating Costs
- Energy Saving
- Increase Customer Safety
- More Comfortable Customers
- Increased Visibility

Number of Lights	Existing 400W Lights	New 150W LED Lights	Annual Savings
1	\$166	\$62	\$104
10	\$1,660	\$620	\$1,040
16	\$2,656	\$992	\$1,664
20	\$3,320	\$1,240	\$2,080
30	\$4,980	\$1,860	\$3,120

*Savings assumes lights run an average of 12 hours per day @ \$.10 per Kw. Actual savings will vary depending on your hours of use and actual electric rates.
